

Vision: The Rain

Debra Jack, Prophet NBCF

11/17/19

During the church service this morning, I had a brief vision of rain falling. Nothing unusual, right? The LORD then spoke prophetically, “This is the rain of My faithfulness. Let it rain on you. My faithfulness is about to manifest. Do not put up your umbrella! Just get soaked in it! Let it rain!”

When I sat down after prophesying, I saw a brief vision of this rain again being

iridescent—showing luminous colors that seem to change when seen from different angles.

Later at home as Rick and I were discussing the word, I felt the LORD say that the iridescent rain represented the many ways and facets that His faithfulness is about to manifest.
