

## CHANGE!!

Apostle/Prophet Debra Jack Pacheco

[Note: The LORD gave me this word on September 16, 2023. It seems the LORD is continually reinforcing this topic. I believe mostly because we are not hearing it nor seeing it as we should. And so, He is reinforcing it to the point of warning. Change is no longer a suggestion. Surely, it is time to heed His warnings.)

The LORD of Hosts says, “Change! Get my mind and mindset. This is for My people.

“You have little time to change—not only *what* you think, but *how* you think and believe. Many of My people are confused, stifled and wrong in their approach to life because they will not change by getting My mind. They funnel everything through their own loud thoughts, understanding, reasoning, and intellect, which is extremely dangerous in this Hour. And they stop their children from advancing as well.”

The Spirit says, “Change is a word too many think they know, but do not hear. Now is the time to hear. If my people do not hear and *do* in this season, they will suffer instead of succeeding! If you will listen to My voice, you will succeed in all you put your hand to. If not, you will fail. If you are failing, you must repent and go back to what I first spoke to you. Repent. Turn.

“I am building and quickly growing a new breed of people who will know Me, humbly listen to My voice and obey at all costs—even if they think they know better. Every bit of your success is based in your hearing My voice clearly and obeying. Those who hear My voice and obey are My sheep. Rebellion and pride will not be tolerated in this hour—in you or your youth.

“Youth are particularly in a dangerous place because they have not been taught. Too many excuses have been made for them. Their sinful practices have been ignored. Too many excuses have been made for them. These excuses come through the parent’s own guilt and shame. They fail to accept my freeing redemption and teach it to their children. Thus, I will hold parents and My Body responsible for these failings. Communication is essential to their spiritual health. I speak to the parents and leaders in My Body: Why do you still focus on and emphasize all other things? Do you not know what time it is? Do you not know their lives are in danger?

“The youth must learn change and grow in faith. They must learn what is important—what is FIRST! I AM commanding parents and leaders to teach them these things and teach them well! Remember, I have entrusted you—parents with these children. They are not first yours; they are mine.

“Change will cause you to clearly see through the fog of the enemy. This evil-wicked-deceptive fog is thickening upon the earth, but your spiritual vision must get clearer and stronger in My Light!”

**Ask the LORD:** “What needs to change in my life?” Or, “How do I need to change?”

**Then:** Repent, receive and activate that change no matter how small or big. Trust Him with your life.
